Objective:

A passionate and creative front-end developer with a strong grasp of modern web technologies and design principles, seeking to leverage my skills in a dynamic team to deliver exceptional user experiences. Committed to writing clean, maintainable code and staying abreast of industry trends to drive innovation and excellence in web development.

Highlight of Qualifications:

- Worked on Web design focusing on improving user experience and functionality
- Detail-oriented on designing, implementing, testing, and improving code
- Willingness to learn new technologies that could contribute to the company's success.
- Strong time management developed by completing tasks within a specific time frame
- Team player with excellent communication skills developed by collaborating with customers and colleagues

Technical Skills:

- **Version Control:** Git, GitHub
- **Data Structures and Algorithms:** Application in frontend optimization
- **Frontend Development:** HTML5, CSS3, Semantic Markup, Style Encapsulation
- **CSS Frameworks:** Tailwind CSS, Bootstrap
- **JavaScript Frameworks:** ReactJS (Hooks, Context API, Component Lifecycle)
- **Build Tools:** yarn, npm
- **Office Tools:** Microsoft Office (Word, Excel, PowerPoint), Google Workspace (Docs, Sheets, Slides)

Education:

Computer Programming and Analysis - George Brown College September 2021 - Present

- Led a team of three developers to create a quiz application using JavaFX within a week, incorporating modern UI/UX design principles to improve user experience and engagement
- Created a static web page using HTML, CSS, and Javascript to optimize the website for SEO and create a visually appealing website.
- Led a team of three developers to create a flight management system application using C# within a tight 2-week deadline, resulting in a successful and functional application
- Built a PHP project with a user authentication and file upload system that streamlined data management and improved user experience

Experience:

Subway Custodian — Toronto Transit Commission Summer 2022

- Collaborated with colleagues and supervisors to maintain a safe and productive work environment, resulting in a clean and safe Subway for passengers and colleagues.
- Conducted regular inspections of the work area, identifying and addressing or fixing potential hazards that require additional attention.

Uber Eats Delivery — Self-Employed

Summer 2022

- Completed deliveries promptly under time pressure, exceeding hourly delivery targets
- Provided care to the customer's product preventing damage, resulting in high customer satisfaction

Team Member — Team Burger King

June 2021 - October 2021

- Restocked workstations with supplies and food display cases with new selections to decrease customer waiting during busy periods.
- Followed food safety procedures outlined in company policies and health and sanitation regulations to prevent food-borne illness.
- Wiped counters and sanitized equipment to maintain clean prep and dining areas creating an environment with zero safety issues
